FUNDING LETTER EXAMPLE

Dear **[Name]**,

Big Bang at School is a hands-on enrichment event aimed at engaging and inspiring our students by showcasing careers in science, technology, engineering and maths.

We're approaching local businesses for **[sponsorship / donations]** and as we're local to you in **[location]**, we wanted to reach out for your support.

Our school **[add FSM, minority ethnic, rural data, etc, and any other measure you feel works]** and your financial support could help us run a successful event and inspire our students.

With your help, we could expand the event and make it truly engaging for our students by purchasing a STEM-related show or workshop. A donation from you could also help us fund the materials we need to run our own activities or buy awards and prizes to celebrate our students' projects and achievements.

In return, this event will help you by raising awareness of your organisation with parents and carers and potentially provide you with a local talent pipeline.

Big Bang at School events have a great reputation among teachers, young people and parents across the UK. For example, one teacher commented: **[Add your own quote or use this "This was an excellent opportunity for employer encounters and to support students to see a wider picture and range of jobs within the STEM sector.' – Teacher].**

For more information on what you would be funding, watch our videos to see what a Big Bang at School looks like, and a description of what's involved.

If you're interested in supporting us, please do get in touch on **[email]**. We'd love to have you involved and celebrate alongside us!

Kind regards,

[Name]
